Fragrance Safety

ScentAir is committed to always taking a leadership position on global fragrance safety. That's our commitment to you.

A thick, teal-colored wavy line that spans the width of the page, positioned below the main text block.

ScentAir Fragrance Safety Standards

As a global organization, ScentAir knows our products touch the lives of countless consumers. Many of the world's leading brands use our service. And our products ultimately reach millions of end consumers. So, we take our role as global corporate citizens very seriously.

ScentAir is dedicated to delivering products we feel comfortable using. Not only around ourselves but our families too. To reach that goal, we hold ourselves accountable to strict safety standards. We refuse to cut corners. From the materials we use to method of delivery, we pay close attention to the details to ensure safety at every level of production.
